

Metal

Model: 6219

Use Zone: 19' 11" x 12' 9"

Fall Height: 4'

Age Groups: 2 to 5 or 5 to 12 Years

Our SeeSaw is a fun and innovative take on a playground favorite. Children sit in the molded plastic seats with built-in handholds. As they shift their body weight to enjoy the classic "seesaw" activity, the fully-enclosed rubber spring mechanism creates a smooth gliding motion and prevents abrupt stops and starts endemic to old-fashioned seesaws.

Features and Benefits

- Molded plastic seats with built-in hand grips
- A playground favorite, updated to provide a better play experience
- Encourages social interaction, enhances balance and coordination
- Rubber spring mechanism provides smooth "seesaw" motion without sudden drops or lifts
- Durable construction with recyclable materials that are backed by the industry's leading warranty
